1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or make obvious the claimed control system for a remote vehicle. Specifically, the prior art fails to show an array of electromagnetic sensors that receive an electromagnetic beam and a control system that uses the signals from the sensors to maneuver the vehicle by directing the propulsion system of the vehicle such that the beam is continuously received and that the output of each sensor of the array is equalized. Note that newly cited Miller, Jr. et al (5,374,009) fails to show continuously receiving "the incoming electromagnetic beam" since it operates on the radiation scattered from the beam and it operates by equalizing the sum of opposite sensors, not by equalizing the signal from each of the sensors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 2-4, 6-33, 35-37, 39-66, 68-78, 80, and 81 are allowed.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 571-273-6901. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 571-272-7045. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
